

A person is considered fully vaccinated if they meet the following requirements:

- a) fully vaccinated, with
 - i. the full regimen of Pfizer-BioNTech/Comirnaty, Moderna with an additional two weeks for the vaccine to be fully effective; or
 - ii. received the full regimen of World Health Organisation Emergency Use Listing (WHO EUL) vaccines (e.g. AstraZeneca-SKBio, Serum Institute of India, Jassen, Sinopharm, Sinovac-CoronaVac) including their respective duration post-vaccination for the vaccine to be fully effective; or
- b) Recovered from COVID-19, i.e. less than 270 days of first positive PCR test result obtained in Singapore; or
- c) Recovered from COVID-19 and has taken one dose of Pfizer-BioNTech/Comirnaty, Moderna, with an additional two weeks for the vaccine to be fully effective; or
- d) Obtained a negative result on a Pre-Event test (PET) by a MOH-approved COVID-19 Test Provider in the past 24 hours, covering the duration of the stipulated activity; or

Exemption from PET

- a.) Singapore Citizens, Permanent Residents, and Long-Term Pass holders who have been vaccinated overseas may be exempted from PET. You are required to provide documents showing proof of vaccination and take a serology test at an approved provider to confirm your vaccination status. Upon a positive serology result, the vaccination status will need to be updated in the National Immunisation Records (NIR), and be reflected on the TraceTogether App.
- b.) You will need to obtain a PET Exemption Notice from any clinic offering ART or PCR testing services, if you have:
 - i. recovered from COVID-19, i.e. less than 270 days of first positive PCR test result; or
 - ii. recovered from COVID-19 and taken at least one dose of Pfizer-BioNTech/Comirnaty or Moderna, with an additional 2 weeks for the vaccine to be fully effective.

The validity period of PET Exemption for recovered individuals is counted as follows:

- i. 270 days from the first PCR+ date for persons who have recovered from infection: or
- ii. 365 days starting from 14 days after completing the full regimen of Pfizer-BioNTech/Comirnaty, Moderna or WHO EUL vaccines (e.g. AstraZeneca-SKBio, Serum Institute of India, Jassen, Sinopharm, Sinovac-CoronaVac), whichever is later.
